## Objective

With years of experience in web design, I have mastered the skills of understanding client requirements according to the latest trends. I have worked with businesses from different niches so you can rely on me for yours.

## Experience

- Freelancer** 2020 - Till date  
Web Developer
  - Creating a suitable color scheme or incorporating the client's color scheme into the design.
  - Coding the site's navigation.
  - Designing buttons and other controls for the site.
  - Creating mock-ups of the site for the client's approval.
  - Fixing any functionality issues, including the removal of "dead links".
  - Updating and maintaining the site.
  - Making backup files of the site.
- Blueprint Resources** 2017 - 2020  
Junior Web Developer
  - Write well designed, testable, efficient code by using best software development practices.
  - Create website layout/user interface by using standard HTML/CSS practices.
  - Integrate data from various back-end services and databases.
  - Gather and refine specifications and requirements based on technical needs.
  - Create and maintain software documentation.
  - Be responsible for maintaining, expanding, and scaling our site.
  - Stay plugged into emerging technologies/industry trends and apply them into operations and activities.
  - Cooperate with web designers to match visual design intent.
- Ledco Nigeria Limited** 2015 - 2017  
Data Entry
  - Insert customer and account data by inputting text based and numerical information from source documents within time limits.
  - Compile, verify accuracy and sort information according to priorities to prepare source data for computer entry.
  - Review data for deficiencies or errors, correct any incompatibilities if possible and check output.
  - Research and obtain further information for incomplete documents.
  - Apply data program techniques and procedures.
  - Generate reports, store completed work in designated locations and perform backup operations.
  - Scan documents and print files, when needed.
  - Keep information confidential
  - Respond to queries for information and access relevant files.
  - Comply with data integrity and security policies.
  - Ensure proper use of office equipment and address any malfunctions.
